JUST LIKE A SMALL CITY.

ITS MANAGEMENT AND DAY-TO-
DAY RUNNING IS NO EASY
TASK!!

COMMUNET IS A SECURE &
INTELLIGENT COMMUNITY
NETWORK SYSTEM

IT TAKES CARE OF END TO END
MANAGEMENT IN THE MOST
SIMPLIFIED WAY.

Discover how to make your community better through CommuNet!!

Building Communication

Communication serves as a foundation for planning & organising, promoting motivation, altering individual's attitudes and in socialisation. Communicate with each other, share information and resources & be involved in various community affairs without the necessity to be physically present. Create a private social network that enables you to hold meetings, polls, classifieds and much more like :

- Articles
- Residents Forum
- Classifieds
- Events
- Complaints
- Meetings
- Polls

Sharing Information

A planned Information system is important because it helps you to have a vital oversight in things like monitoring employees, sending information or coordinating activities in the society to create a value chain. You can create a comprehensive online directory for your society containing information of all residents (owners or tenants), vendors engaged, point of contacts and much more like :

- Flats
- Staff
- Vehicles
- Point of Contacts
- Forms
- Vendors
- Assets

Comprehensive Accounting

Accounting is important to a community because it is the base that offers great support to management for planning, controlling as well as decision making process. It is with the aid of accounting information that the performance of a unit can be evaluated, at the same time as, its logical records make possible to get rid of the frauds and the thefts. Manage your finances in a secure, comprehensive and professional accounting system specifically designed for residential societies. Create balance sheets, track your expenses and much more like:

- Balance Sheet
- Revenue / Expenses
- Groups & Ledgers
- Transactions
- Reports
- Chart of Accounts
- Financial Periods

Efficient Management

Efficient management leads to better economical production which helps in turn to increase the welfare of people. Good management makes a difficult task easier by avoiding wastage of scarce resource and improves your standard of living. Manage your society more efficiently by eliminating paperwork and resolving issues through a complaint management system. Avoid conflicts and have a healthy discussion to identify and remove the bottlenecks of a process. Set viewer scope to maintain security and consistency and much more like:

- User Management
- Staff Management
- Staff Salaries
- Flat Management
- Vehicle Management
- Committee Forum
- Society Setup
