Boost Sales Support and Satisfaction

SoulCRM

SoulCRM is incredibly simple and efficient web based software specifically designed for Indian businesses.

It provides a complete view of customer interactions across your sales, marketing, and customer service/support departments, whether you just need a CRM tool to handle customer contacts and activities or need support for marketing, sales or customer service process. SoulCRM is the right solution to satisfy your business needs.

SoulCRM help organizations to streamline their business process and attain sustainable success by aligning their strategy, processes and technology to manage customers, teams and partners, efficiently and effectively.

Marketing

SoulCRM helps you transition from a knowledgeable company to an intelligent one. In other words, it assists you in converting your dormant stock of information into actionable insights that lead to business results.
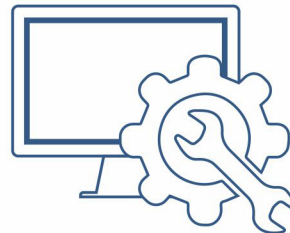

Sales

Build trustworthy relationship with your customer with SoulCRM securing and facilitating the quotation, sales order, invoices and receipts processes. It also integrated with Tally as well.

Support

Deliver extraordinary customer service with SoulCRM, it enable support teams to swiftly resolve customer issues and deliver a quality experience that builds reliable and profitable customer relationships.

Services

SoulCRM through services allow you to always have 100% control over your products and inventory by monitoring and tracking stock level and reorder when buffer stock level is reached.

It's flexible to adopt your business processes

In India each and every business has got its own style, size and needs. And with growing economy, these needs change as the business grows. We SoulCRM is designed to align with your business needs.

Easy to learn and operate for you and your team

SoulCRM is designed with less complexity and ease so that you and your team can use it with minimal training.

We understand your budget too

We know the market and thus we tried to balance between key needs like professionalism and price so that our users find it best for their money.

Automate sales, marketing and support processes

Business do their best when everything is aligned and running smoothly. With SoulCRM you can automate these processes easily to keep everything aligned.
