A Product By – Kritin Technologies Pvt. Ltd.

Since our inception in 2005, we have solely focused our time in developing faultless practices, techniques and a true dedication to delivering proficient results on time and on budget, probably this is the reason why we have gained a unparalleled high growth rate in the industry.

Now, we serve a vast range of state of the art IT solutions including but not limited to software development, website designing and application management, and helping a big list of global clients run their business with the highest efficiency

GURUKULCONNECT is a cloud based application that empowers school management to manage entire organization through the advantage of Cloud technology.

Student Management

- ❑ You can make sure you will receive entire data management. Just a couple of clicks, and you get a proficient way to manage all the kinds of data.

Fees Management

- ❑ Administrators can easily use this school fee management system to create dynamic fee structures defining the type of fee to be collected from a specific grade and the time of collection.

Exam Management

- ❑ Conducting examinations and creating examinations reports can bring lines of stress to many schools, but GURUKULCONNECT lets you generate and manage student examination report.

Transport Management

- ❑ Vehicle Owner Registration, Driver Registration, Route Creation and Student Assignment to a specific route is covered under this module. There are multiple reports for Transport Management.

Library Management

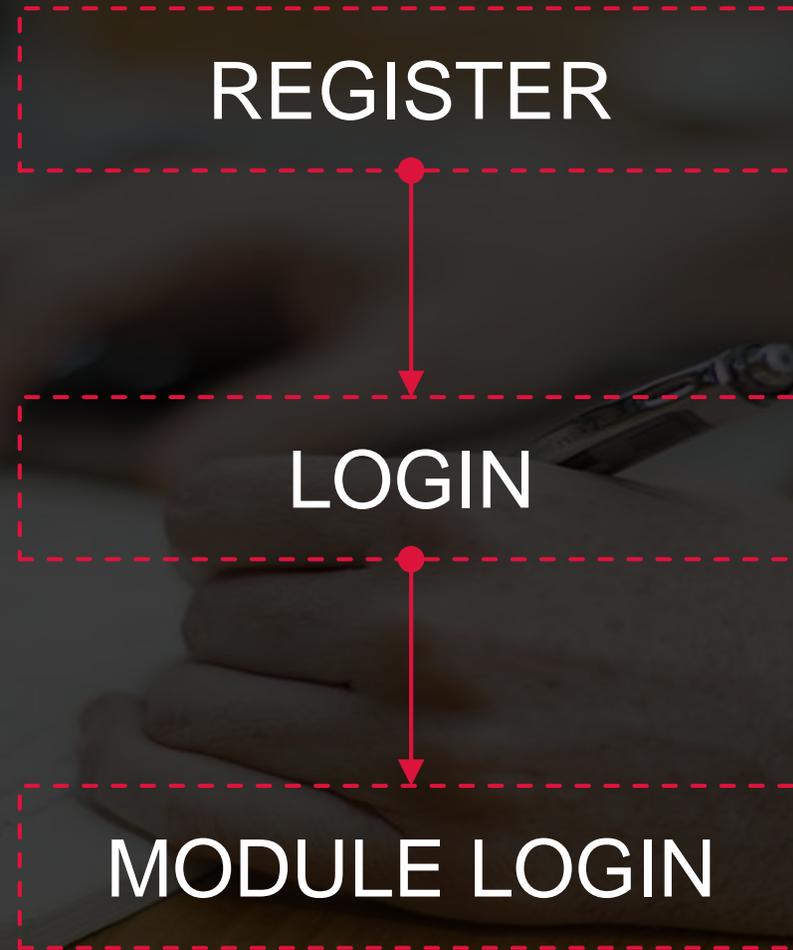

- ❑ Online Library Management where details of books/media issued to student are maintained. All the book/media is registered under this section.

Website Management

- ❑ Today's parents need to know each and everything related to their child in the school. We at GURUKULCONNECT believe so.
