

ALL ASSET RELATED DETAILS AT A SINGLE PLACE

The screenshot shows a web application interface for asset management. At the top, there are three main sections: 'ADD ASSET' (green), 'ASSET REQUEST' (teal), and 'REPORTS' (yellow). Below these are filter tabs for 'ALL', 'ALLOTTED', and 'UNALLOTTED'. The main area contains several filter fields: 'Category', 'Asset Location', 'Allotted To', 'Department', 'Status', and 'Condition', each with a dropdown menu. There is also a search bar and a 'CLEAR' button. Below the filters are several action buttons: 'ASSET RETURN', 'ALLOT ASSET', 'SCHEDULE ACTIVITY', 'DISCARD OR SELL', 'MOVEMENT HISTORY', and 'UPDATE'. A table below shows a list of assets with columns for ASSET CODE, ASSET NAME, CATEGORY, ASSET LOCATION, ALLOTTED TO, ALLOTTED UPTO, BRAND, MODEL, STATUS, and CON. The table contains 12 rows of data.
