Traditional Way of Communication

The SchoolPad Way

Parents Have CHANGED And Schools Need TO KEEP UP

Parents today have access to a variety of channels through which they consume information.

What this means is that, it's easier than ever for schools to keep parents involved and engaged through out their child's education

Our Customers

At first I was not sure how beneficial SchoolPad would be for our school, but now I am not sure how we would have managed without it. Service, support, functions and training are all excellent quality.

**Clifton Shipway, President
Maxton Strong School**

We knew we hired a great product since beginning but the after sales support has been truly exceptional. I would highly recommend Schoolpad to any School looking for a great product which is easy to use and value for money.

**Atul Agarwal, Vice Chairman
New Rainbow Public School**

With SchoolPad, we have been able to take our communication with the parents to the next level. Both the support and experience have truly been delightful.

**Robin Aggarwal, Director
The Millennium School, Mohali**

Schoolpad is the nervous system of our school that helps in functioning of all the Parents, Students and Staff Members together so as to ensure a healthy school with healthy minds.

**Dr. Niyati Chitkara, Principal
Chitkara International School**

How SchoolPad Works

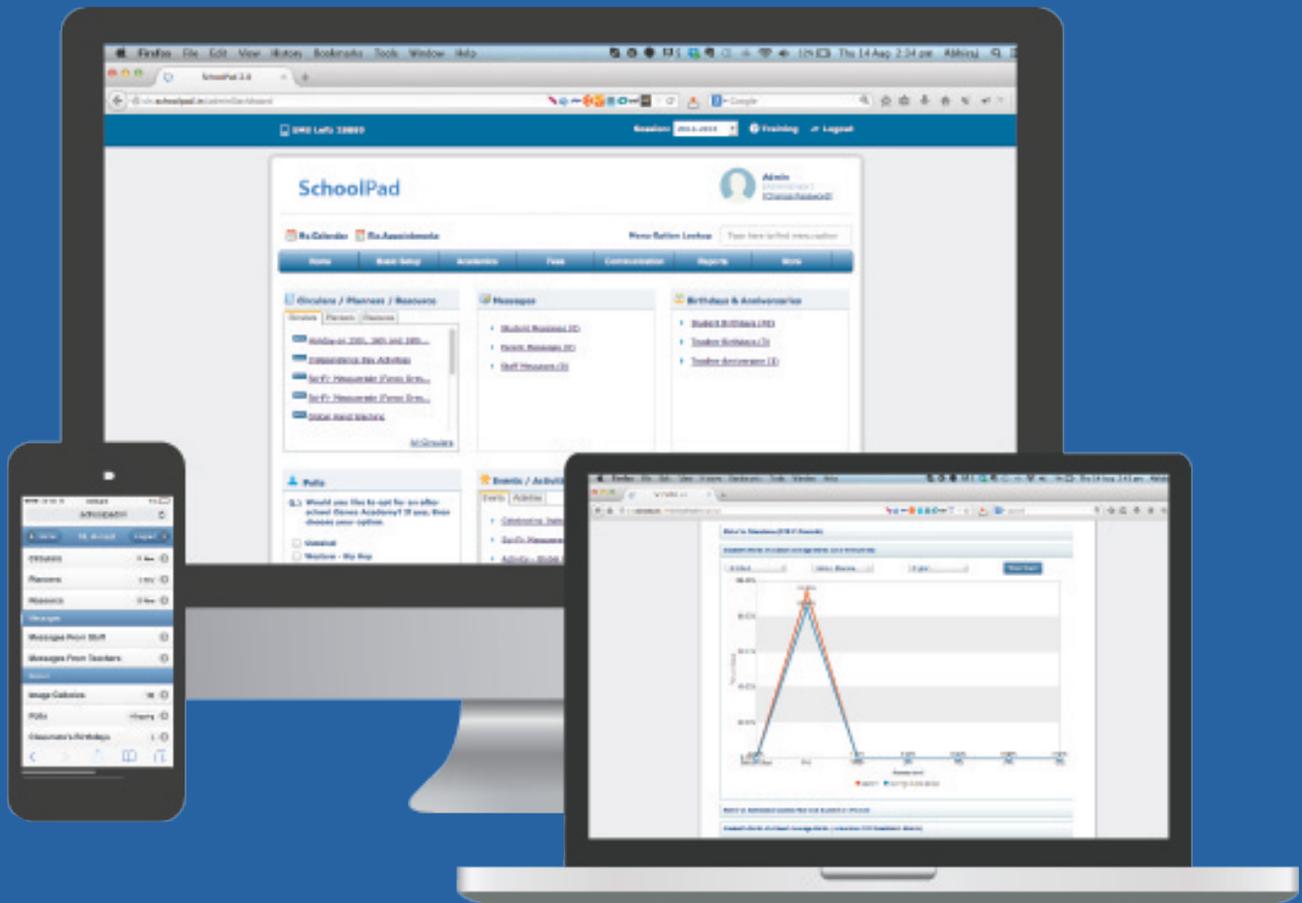

We have pulled together all the tools that a School needs to manage it's day to day operations effectively and created a single online platform from ground up to provide you an amazing experience.

Management

-  Tracking pre-admission enquiries followed by student admissions where you can capture any kind of data with custom fields.
-  Searching and browsing the complete academic history of a student including personal details, academic details, paid fee details, medical details and progress all on a single page with a few clicks.
-  Managing examination data where all calculations happen automatically followed by generation of powerful reports and graphs which can also be shared with Parents automatically.
-  Daily attendance with automatic SMS alerts for absentees.
-  Online library for parents, students and teachers where they can browse and issue books online.
-  Collecting and managing fee including fines and concessions followed by powerful reports which help you keep track of all payments and defaulters instantly.
-  Employee data management including employee attendance where employees can also apply for leaves online.

Parents Involvement

-  Sharing circulars, assignments, practise tests homework etc. among Parents and Students online with automatic SMS and email alerts.
-  Creating photo galleries, online polls and consent forms to engage parents and get their feedback online.
-  Creating online activities and informative pages for existing and potential parents which can further be shared on facebook directly from SchoolPad.
-  Managing Events and Appointments online through SchoolPad.

SchoolPad is not just about the technology, but about transforming the way Schools operate and pulling that kind of a transformation requires a special team.
