ACTIVITY AND OCCUPATION RATES, ROOM OCCUPATION RATES AND VIABILITY FIGURES

Report based analysis

Available in summarized or detailed format, reports help fine-tune your management strategy. Smart Hotel gives you all the tools necessary to analyse and retrieve any information about your hotel's structure.

Chart analysis

Smart Hotel lets you view your hotel's figures in graphical form.

Growth curves compare performances with the same period from the previous year.

For an even more precise comparison, periods are adjusted so they begin and end on the same day of the week.

- Room performance report
- Reservation transaction report
- Source wise analysis
- Room wise/date wise night audit
- Guest analysis
- Daily/Weekly/Monthly Sale Report
- Fast Moving Items
- Slow Moving Items
- Liquor Vs. Food ratio
- Cash flow
- Business sales flow
- and many more 200+ reports

AMAZING ADVANTAGES!

Communication

Get information directly from your guest with Smart Hotel: promotions, marketing operations & offers.
