cake HR

YOUR HR. *simplified*

An Introduction
to the Software

About CakeHR

Founded in 2011, CakeHR is a growing HR software company that provides attendance and leave management solutions for customers in over 500 cities worldwide.

Unlike older platforms which can be painfully slow and complex, our innovative & user-friendly tool is designed to be fast and enjoyable to use for company employees.

This improves their frequency of use, and the quality of data that they supply without the need for paperwork or spreadsheets.

The Killer Cost in Your Company

Having subscribed to CakeHR, the HR department conducted a report into the activities of their employees.

One employee, to the surprise of the company owner, had spent **140 hours (almost one full working month!)** in all those little reasons for needing a few hours out of the office - "I need to be at the dentist", "Exam day", "Sister's graduation".

It all adds up and the cost is a real killer to the company.

By tracking employees with a streamlined process, you ensure costs are reduced and efficiency increased through understanding your employee's activities

Stress
69% of workers say unplanned absences lead to stress

Perceived Productivity
Perceived productivity loss of unplanned absences is between 24-40%

Less Productivity
61% of workers say unplanned absences leads to increased workload and less productivity

Absences Costs
Failing to track absences costs the company up to 15% more

Manage Employee Leave and Time Off

You will always know who is off and when without the hassles of paperwork and spreadsheets

Your account data is synced in real-time to:

MS Outlook

Google Calendar

Apple iCal
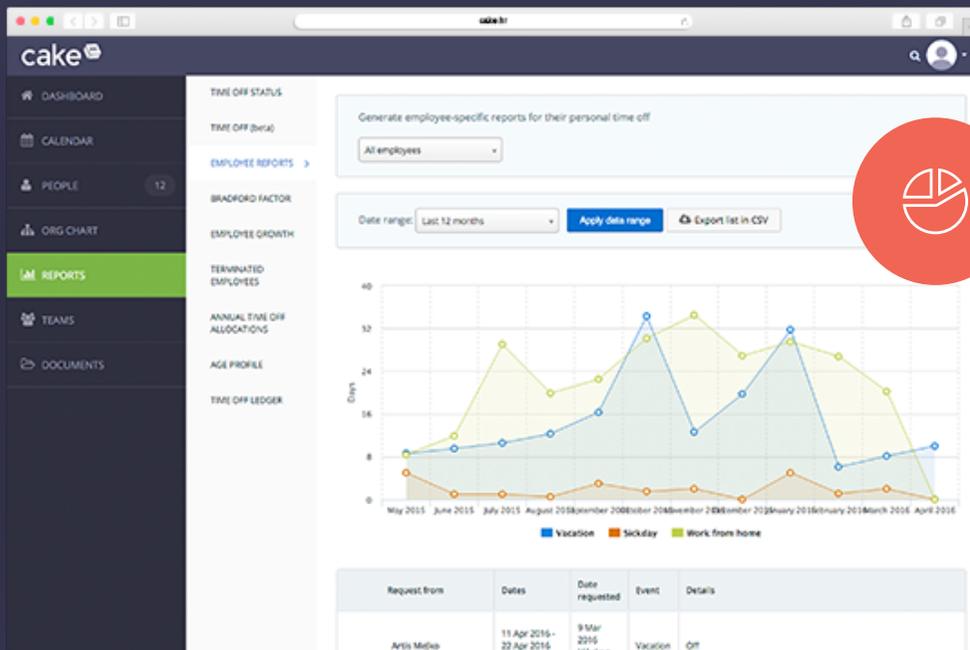

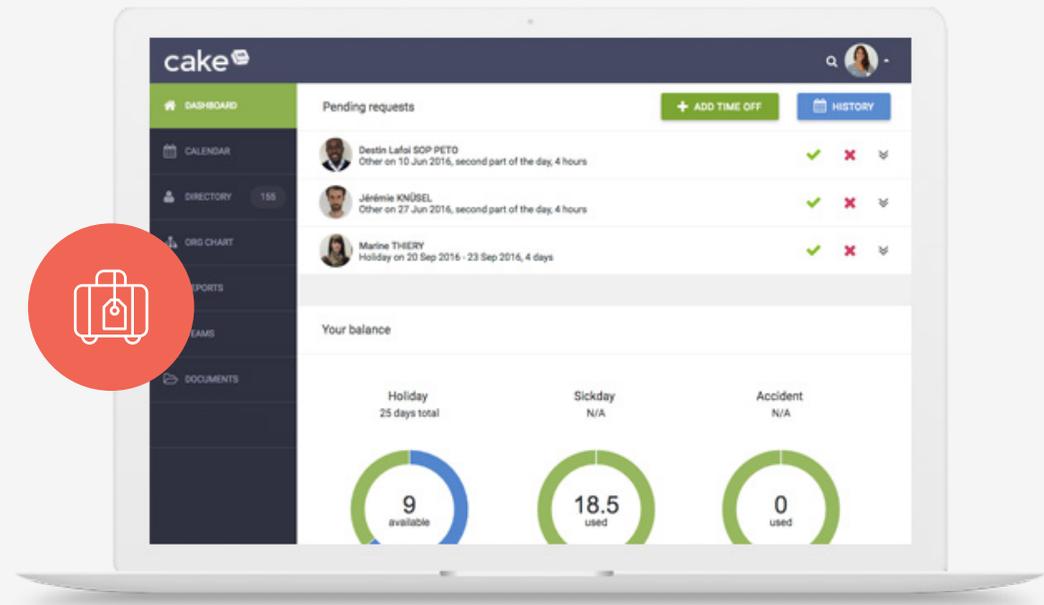

Get Detailed Employee and Company Reports

At the click of a button, run advanced report on your employees to understand their habits quickly and concisely

Visualise Your Company's Org Chart

As you grow, ensure everybody knows who is doing what and where in your company

No obligation to subscribe

No credit card required
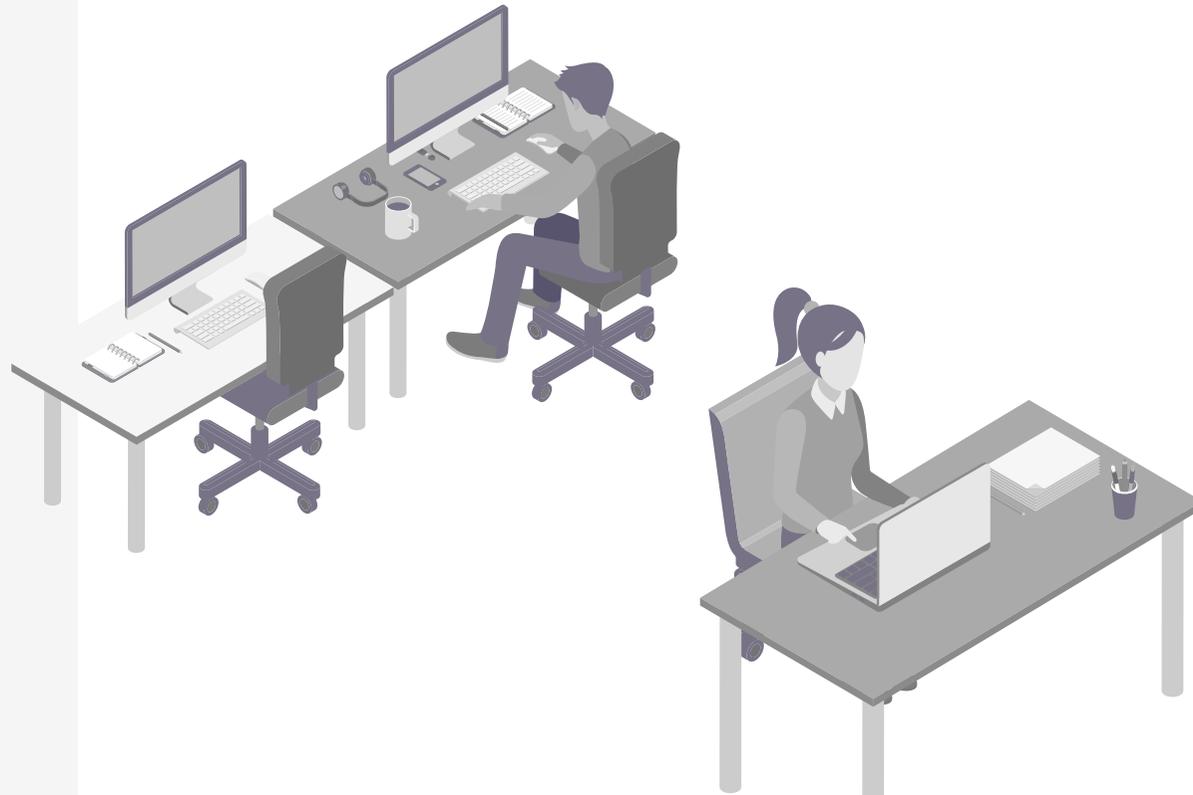

€ 3.50

per employee, per month

€ $ £

What's the scoop on the 30-day free trial?

Yes, we offer a 30-day trial to all plans. No credit card details are required so there's no obligation. Simply try out CakeHR & if you like it - sign up for the paid version at the end of your trial.

Do I need a credit card to sign up?

Nope. We just ask for some basic info to start with - your name, email address and the name of your company. That's it. Signing up takes 20 seconds!

How does the trial work? What happens when it ends?

You can try any plan free for 30 days. Once your trial ends, we'll ask for your credit card information to continue using CakeHR.

In what currency does the billing happen?

When you subscribe, you'll be charged in Euros. The final cost will depend on the current exchange rate in your currency.
