Make Profit & Delight Guests

# Problems restaurants face

Shortage of quality  
manpower

Costly and  
inefficient Management

Delayed response to  
changing market  
dynamics

Margin loss due to  
inflation or price  
fluctuation

# Problems guests face

Unorganised  
waiting queue

Insufficient  
food menu

Fancy food  
item names

Stewards unfamiliar  
about menu

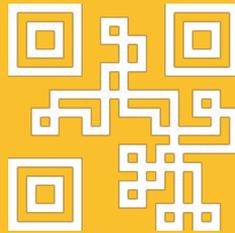

Limited & loose  
payment options

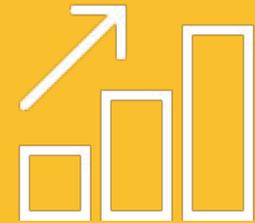

# The Solution

Direct Table Ordering and Payment from diners' own device will reduce dependency on staff. Digital menu will promote cross/up sell & impulse buying with mouth watering pictures & detailed information about dishes

Digital Menu will bring flexibility in altering the prices. Introduce new dishes to patrons with ease. Boost revenue and elongate overall business lifecycle. No need of reprinting physical menus.

Active digital feedback, waitlist & reservation management and other features like these will transform the guest experience and your restaurant management practices.
