CONQUER HCM

Have you got what it takes to be a synergist?

The future is NOW....

Corporate entities serve as a prospect for exceptional access of statistics and interaction, giving a real world experience to the management and personnel as well. Thus, a systematic approach to managing people has become an absolute necessity in these times of change.

Conquer Infotech India Private Limited, since 2008, has risen as a single biggest opportunity to lead positive transformation in your organization and address this rapidly changing need.

> " The most important single ingredient in the formula of success is knowing how to get along with people. "
>
> – THEODORE ROOSEVELT

At CONQUER, we believe in the power of Quality. The skill is in grasping the client's requisites, crafting and distilling and tailoring and enhancing it to exactly the right strategies and solutions.

The sophistication lies in the system

CONQUER HCM is software developed with a suite of programs that translates organizational strategies into practices related to Human Capital Management (HCM).

The efficacy of our product combines multifarious HR functions like payroll, benefits, employee self-service, attendance, recruiting, training, performance analysis, review, reporting and compliance into one package.

Of course, with advanced service support backed by technical expertise and value additions to the product from time to time, CONQUER HCM goes that extra mile, making processes and workflows easier to comprehend, thereby lowering costs, reducing administrative time and empowering the workforce.

The forte of this ultra tool

CONQUER HCM has outstanding features that can be tailor-made to specific requirements:
• HCM anytime anywhere
• Modular approach
• Enhances efficiency of the HR Team
• Informative MIS and Dash Board
• Configurable business process to suit different industry practices
• Easily customizable
• 360 Degree view of the recruits
