What is PeopleBookHR?

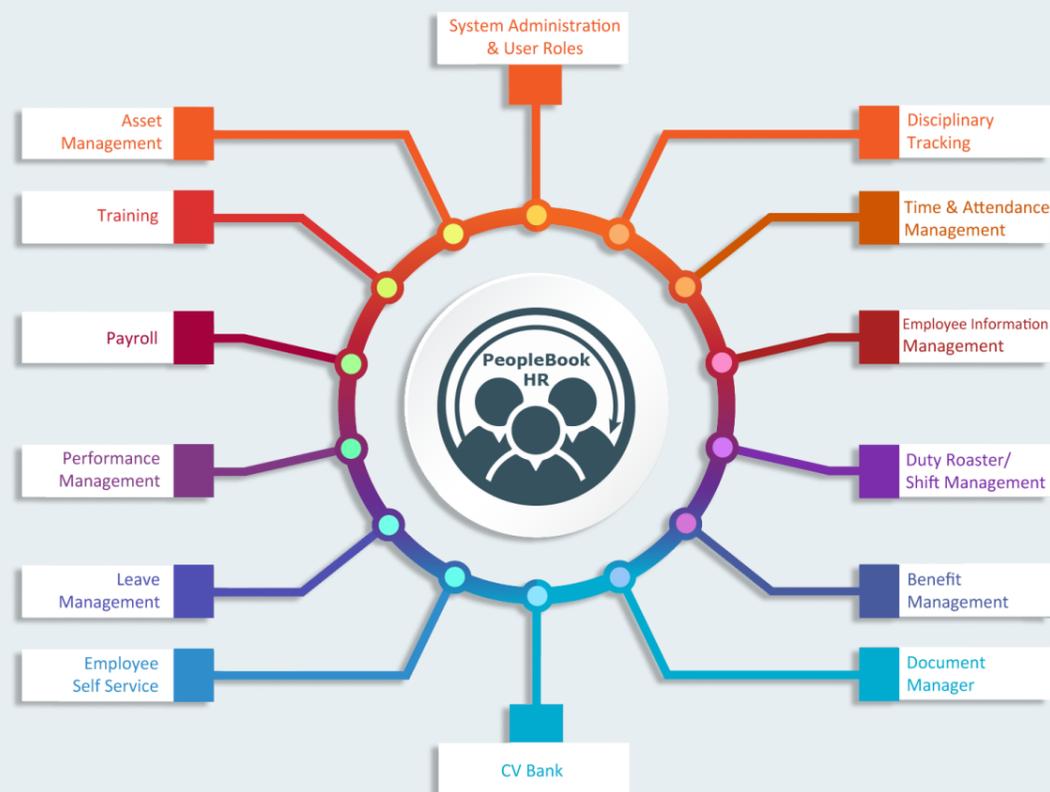

An application based solution to manage your human resource combined with reporting mechanism. A timely solution to upgrade and modernize your HR team to make it more efficient and effective by utilizing every resource. As your organization grows, responding in real-time to one-off requests can be virtually impossible. In order to facilitate the process, we are providing an application platform.

Wouldn't it be great if you could easily automate, assemble, and yet produce more:

- Time, attendance & asset management
- Performance, leave and shift management
- Disciplinary tracking, training
- Payroll, document manager and more...

Save time and money with a system that:

- Efficiently manage your employees
- Automate your employees
- More accurate, smart, safe, secure & speedy employee management

PeopleBookHR Features:

SYSTEM ADMINISTRATION USER ROLES

The Administration module is the central control module of the system for HR administrators. The module is packed with tools to enable smooth and organized HR management.

EMPLOYEE INFORMATION MANAGEMENT

Maintain employee records with this comprehensive employee database. Increase your productivity and decrease reporting time when important personnel information is needed. Our EIM module offers benefits

- Maintains employee profiles and job history
- Generate custom personnel employment reports
- Centralized system gives you access to information wherever you are in the world

TIME AND ATTENDANCE MANAGEMENT

Replace your manual time and attendance tasks with our HRM module. Capture and manipulate time sheet and attendance data, save valuable HR time and eliminate delays in understanding employees'

PERFORMANCE MANAGEMENT

The evaluation of employee performance is a critical function for any HR department. Our HRM Enterprise module gives you the power to formulate and follow-through on effective employee evaluation.

HOLIDAY LIST

TRAINING

This feature-rich module enables administrators and supervisors to create and manage employee training courses.

DOCUMENT MANAGER

The document manager is a system wide feature which allows HR documentation to be generated from various points in the system.

ASSET MANAGEMENT

All upcoming events, holidays will be shown under this option. The main purpose of this option is to keep sales force up to date with all the activities.

PAYROLL

To make a smooth payment flow for employee PeopleBookHR will also include payroll option where employee payment management will be done very easily and hassle freely.

DISCIPLINARY TRACKING

It is important to document all steps associated with handling discipline with staff. Now with our HRM module you can track and maintain all cases and actions with ease.

EMPLOYEE SELF SERVICE

Employees within the organization can easily access information related to payouts, income tax, leave status, company policies etc. They can apply for Leave online, they can view their pay slips, total earnings statements, PF and YTD statements. Details related to loans like installments paid, balance payable, etc. can also be viewed without having to wait for HR reverts. Thus you spend less time answering questions and more time pursuing the vision.

Complete solution for managing your human resource
