● Improve the Search for Better Candidates

- 1) Publish your jobs to the internet's most popular job boards and social networks automatically.
- 2) Automatically link your open positions to your business website in real time. No need to call your webmaster for updates.
- 3) Automatically import and parse resumes into your database fields with a click from job boards, social networks and websites.
- 4) Build a strong candidate database where you can efficiently search for matching profiles.
- 5) Replace spreadsheets, paper resumes and unproductive sourcing methods.

iSmartRecruit web based recruiting software platform streamlines your recruiting work flow and delivers an online recruiting software system with a comprehensive source of critical information.

● Easily Link Customers, Openings and Candidates

- 1) Customize iSmartRecruit to match your organization's hiring processes.
- 2) Securely browse resumes in the database using key words, Boolean and geographic radius queries.
- 3) Keep everyone informed using customizable steps in the work flow stages.
- 4) Easily track action items on your calendar by setting alerts and reminders. Never miss interviews or important calls and meetings again.
- 5) Be better prepared for candidate and customer feedback; track important outcomes with updates and notes.
- 6) Integrate with your department or company email to easily keep individuals and groups informed.
- 7) Access from your laptop, desktop or the smart phone in your pocket.
- 8) Easily manage your company's recruiting processes online to improve employee, candidate and customer communication.

Increase your organization's capacity to manage candidates and job orders thereby reducing your cost-per-hire and minimizing your number of days-to-hire.

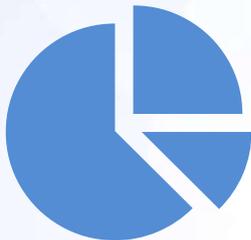

● Reinforce Relationships and Grow the Business

- 1) Use real-time dashboards so employees can easily access information.
- 2) Customize your business development processes by tracking prospects that can be converted to customers, maintain contact information for all stakeholders and maintain contract details.
- 3) Associate your customers with multiple openings, candidates and placements.
- 4) Forecast revenue, manage invoices and track payments.

iSmartRecruit centralizes and automates key corporate functions resulting in stronger stakeholder relationships, repeat business and company's growth.

● Insightful Analyses and Reporting Capability

- 1) Easily maintain required stakeholder information for compliance reporting.
- 2) Use reporting tools for graphical displays and exporting functionality.
- 3) Make more effective, data-driven decisions for your department or business.
- 4) Uncover bottlenecks in your workflow and quickly identify improvement areas.
- 5) Monitor individual employee effectiveness to help improve performance.
- 6) Measure days to hire and identify your most profitable customers.
- 7) Eliminate the need for dedicated analysts or separate BI solutions.

iSmartRecruit's easy-to-use graphical reports positively impact completely display the business bottom line.

Pricing Plans

iSmartRecruit is affordable recruiting software. We have designed various plans for the different needs. See our standard pricing models below.

Cloud

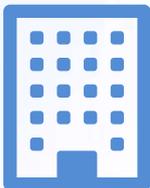

1) Pay per user/month:

It is a right fit plan for small industry where you need to pay for only active users. You can increase or decrease number of licenses based on team size.

2) Pay per enterprise/month:

It is a right fit plan for medium or big enterprise. You just need to pay once in a year for licenses.

On Premise

3) Pay per enterprise/year:

In addition to previous plan, in this plan hosting will be done on your premise (office). You have control on your data and application as it will be hosted in your office.

4) Lifetime unlimited user:

If you want to do long term commitment then no need to pay every month or year. Go for this plan where you just need to pay once for unlimited

Customized

5) Customized version:

In case you want to customize iSmartRecruit based on your need like adding some reports, new functionalities etc. then this is the plan meant for that. You can contact support for more information about this option.
