Cleanwash 1.0

Avosoftware Technologies

What is Cleanwash?

Cleanwash is a dry cleaning, laundry, sewing, tailoring, and alterations management software for your business. It includes; CRM and Marketing functions like email and SMS marketing. It revolutionize your business using the text or email follow ups. Create invoices, receipts, tags (text & barcode), etc.

If you handle records manually or through some spreadsheet application, or if you even handle a lot of records every week, you will agree that you need an effective and easy way to manage these records as quick as possible. Cleanwash meets these needs by making it easy to store and navigate records for your business, making it as easy as clicking a few buttons to get the desired result.

Why Cleanwash?

- **User friendly:** It is very easy to learn and user friendly, even people who have little computer knowledge can begging to use it with little or no training.
- **Feature Rich:** It is filled with necessary features for everyday use of your business.
- **Increases Sales:** With its marketing tools, you can make sales easily by say informing customer of special discounts or promotions.
- **Secured storage:** Your data are securely stored, to protect it from prying eyes.Prevents Mistakes You no longer need to worry of misplaced clothes or wrong calculations of transactions as you can track these easily.
- **Detailed Reports:** Contains well over 20 unique reports and another 40 variations total for the reports.
- **Reliable:** With our numerous customers are using all over the world, you can be sure to trust us.
- **Best Service:** Best technical support by email, chat, phone for all our products.

Created with best architecture

- **Reliable:** With the demand on everyday business to store, retrieve and use information, Cleanwash lives up to the task by using a database model that is up to the demand.
- **Fast:** Cleanwash uses a fast database architecture which is very fast when compared to old databases which can be slow in retrieving records.
- **Large storage:** The amount of storable data is limitless, only limited to the size of the hard drives on your computer. Your data is safe even after years of usage.

Maximize your return on investment
