The Eversports Studio Manager

The intuitive software solution for smart management of your studio

We developed our Studio Manager in close cooperation with studio owners. Our goal was to create a software that makes management and booking of classes, courses and workshops as intuitive and efficient as possible.

We focused on a fast check-in and easy sale of additional products. This way you have more time for your students or athletes on site.

Moreover we wanted to help you maximize your occupancy significantly. Using the Eversports Studio Manager, your studio is bookable 24/7 on your own website, the Eversports Marketplace, and our App as well.

Individual Online Booking

Easily embed your individual class calendar on your website. This way your customers know which courses or classes are taking place when and they can simply book them online. Further you can choose the colors of your calendar, so that it matches

your website design.

Your clients can choose to pay directly via PayPal or credit card or pay in cash at your venue. Get additional hardware on request. Let us provide you with a cash register system compliant with the latest legal standards, a receipt printer and other POS hardware for your studio.

Workshops, Classes & Courses

There are many ways to label activities. In order to display various kinds, we distinguish classes from courses and workshops. Workshops and courses are time-limited. Customers automatically sign up for each time the course or workshop is being held. This means, clients always book the whole course or workshop, no matter how many times they will actually show up for it.

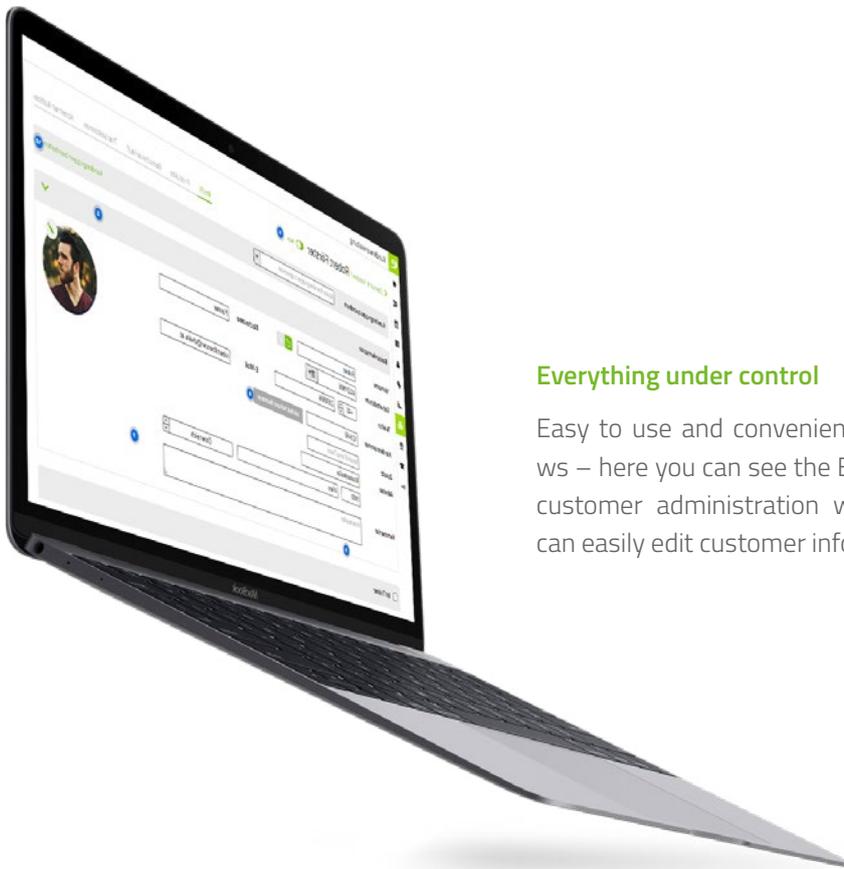

Classes are regular events that students can book individually. For example, regularly held classes or open event series. This way you can offer your students seasonal or multi-use passes that entitle them to participate for e.g. a month or a year. You can also manage long-term contracts using the Studio Manager. Your customers can buy these products and use it to pre-register online for classes, courses or workshops.

Everything under control

Easy to use and convenient overviews – here you can see the Eversports customer administration where you can easily edit customer information.

Intuitive Administration

These functions aim at helping you keep a good overview of all your tasks and get them done quickly.

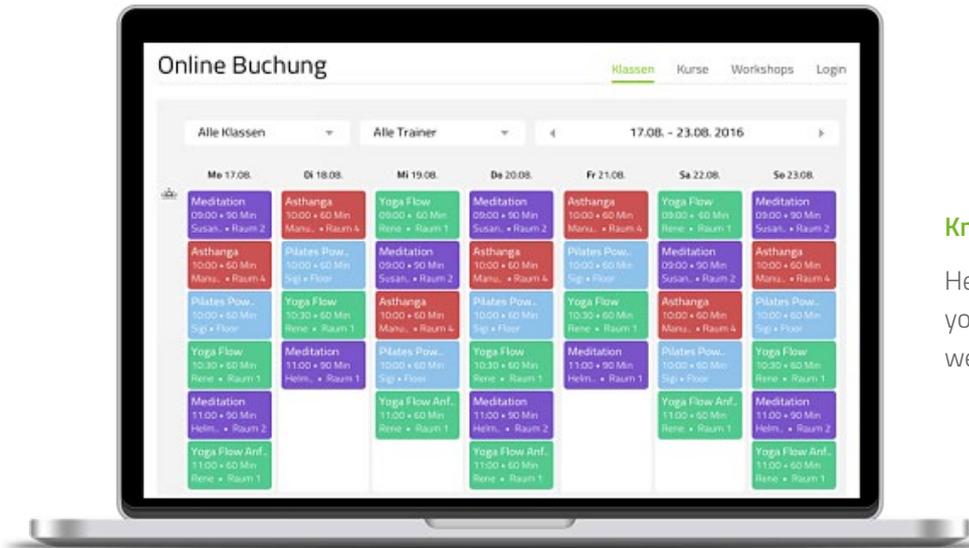

▪ Fast check-in:

We developed the innovative check-in function, so that you can check-in as many customers and products as possible within a short period of time. Your customers all tend to show up at the same time, last minute? No worries, check-in will be done in no time. This way you can focus on your customers instead of paper work.

Simple customer administration: Find customers fast in customer administration, sign them in or edit their data. Also administer

user groups and use employee accounts with limited access. Assign trainers or instructors to classes and courses.

▪ **Class and course overview:** With our class and course overview you're always up to date with your entire studio's schedule. Easily edit single classes, courses or workshops, revise details or switch teachers or rooms.

Know it all!

Here is our class calendar which you can easily embed on your website.

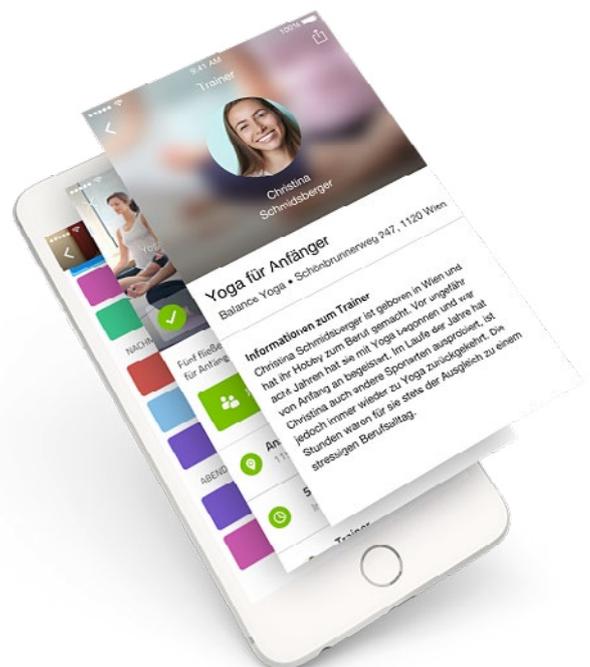

Online Booking

Modern online booking is an additional service for your customers and makes your daily work a lot easier.

- **Individual calendar:** Design your individual class calendar, structure it and embed it on your website. This way your customers can book directly through your website at any time and get additional info on hours, trainers and rooms.
- **Products & Services:** Your customers can purchase multi-use or season passes and use them to pay for classes. This way, you boost customer loyalty. Additionally, sell products such as tea or yoga mats. Customers can purchase products and services directly during the reservation process.

Die Eversports-App

Via the Eversports App (iOS and Android) your students can look up and book your offers on the go 24/7.

Cash register

Our cash register is integrated into the booking system and complies with legal standards. With Eversports you get hardware and software from a single source.

- **Software solution:** Matching the studio management software we offer a cash register as an integrated function of our Studio Manager. Needless to say, it conforms to the latest legal standards in Austria and Germany. With the Software you can sell e.g. beverages and passes to your customers on site without switching applications.
- **Hardware solution:** Get additional hardware on request. We offer receipt printers and cash drawers that match your cash register software. This way you get everything from a single source.

Cash register obligation:

You'd like to find out more about the cash register obligation and whether or not it affects you? Just read our free fact sheet on the topic.

[Access Smart Guide](#)

Cash register:

All transactions at a glance with detailed filter function.

This way you keep track of your cash flows.

Further, our responsive design enables you to access it via any mobile device.

Bar code & RFID:

Provide your customers with convenient cards or tags to identify themselves.

Matching hardware

Looking for suitable hardware often takes a lot of time. So we decided to make it simple for you. Get everything you need from a

- **Consumable supplies:** We offer further hardware and supplies. If you e.g. run out of till rolls for your receipt printer, we are happy to help you out.
- **Smart supplies:** RFID-tags and member cards with bar codes help you with e.g. further simplifying the check-in process. And your logo can be printed on the cards.

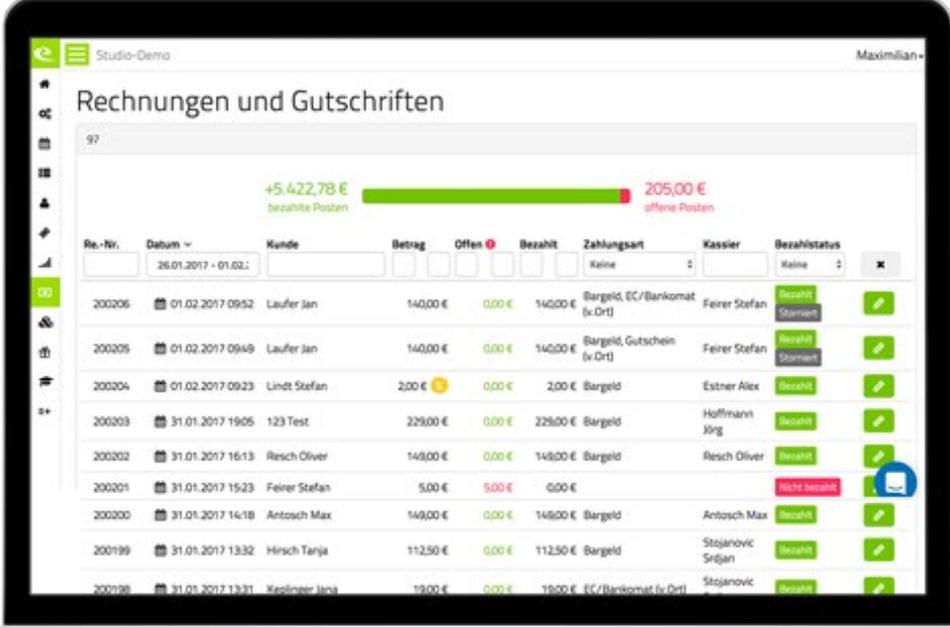

Save time, boost customer loyalty, maximize revenue

Many functions of the Studio Manager have been tested in practice and were optimized to help you save time and nerves conducting your daily business.

- Booking confirmation & marketing:** Invite your existing customers to book online or inform them about upcoming events. Customers and providers automatically receive a booking confirmation via e-mail or text message upon booking.
- Contracts & SEPA:** The Studio Manager enables you to set up and manage your individual contracts. Correspondingly, the software offers a function to manage your SEPA transactions.
- Revenue & reporting:** Under "Invoicing" you will find all the information regarding your revenue, day-end closings and invoices. You can e.g. check the number of outstanding receivables or which employee did which bookings. Using a convenient filter, you can easily get a report for a specific period of time. This way you e.g. find out which offers or customer groups contribute significantly to your revenue. Moreover, for detailed evaluations you can export all data into excel files.

Reporting:

Besides the actual cash register system the software provides you with invoices, day-end closings, revenue reports, cash books and detailed protocols.
