

TIP Technologies Company Overview

Partner with the Industry Leader for Quality and Compliance

TIPQA™ is a proven solution for improved business performance.

The TIPQA™ Advantage:

- TIPQA™ consists of 15 integrated modules that support the complete range of quality management functions
- TIPQA™ is designed to complement leading ERP solutions for expanded Quality capabilities
- TIPQA™ is optimized for the Aerospace & Defense Industry, Medical Device Industry, and complex manufacturing markets
- TIPQA™ provides real-time access to Quality data and metrics that allows for better business decisions
- TIPQA™ allows for effective audit management resulting in complete visibility and control
- TIPQA™ Shop Floor Execution (SFE) enables a paperless shop floor environment

TIP Technologies was a pioneer and continues to be the recognized leader in quality assurance software. Founded in 1989, the company was one of the first to provide integrated quality assurance software using a commercial, off-the-shelf strategy. With companies around the world, continuously and successfully deploying TIPQA™, TIP Technologies focuses on serving the needs of companies in regulated discrete manufacturing industries. We don't just create quality assurance software. When it comes to compliance, traceability and global supplier management, we deliver peace of mind.

TIPQA™ is a simple, flexible, yet complete solution for manufacturers who view Quality as a competitive advantage. Companies choose to work with TIP Technologies to enhance their reputation and gain respect for working with the unparalleled leader in Quality. TIPQA™ provides precise management/business process metrics that enables you to reduce cycle time from defect detection to correction. TIPQA™ generates detailed records with audit trail, including time stamps and electronic signatures that are maintained throughout the Material Disposition and manufacturing process. Notifications of required actions are easily integrated with your email system, automating workflow and improving communication between departments. TIPQA™ enables your company to achieve continuous and measurable Quality Management improvements while increasing customer service, productivity and profitability.

TIP Technologies has more expertise in understanding complex quality business processes in a regulated manufacturing environment than any other solution provider. TIP Technologies hires from within the industries it serves so that subject matter experts are always available to support implementation, integration, training, and support. The TIP Technologies team is skilled at helping customers understand and improve their quality processes, while working toward their overall business objectives. The TIPQA™ solution allows customers to quickly adapt to changing markets and quality requirements with ease.
