CASHFLOW SIMPLIFIED

# GST is not just a tax change, it's a new way to do business!

## Business Processes

- **ALL invoices need to be filed/uploaded. Invoices need to be in GST format with mandatory fields.**
- **You need to ensure vendor/supplier compliance on 10th, 15th, 20th of every month! There will be 37 returns per year per state!**
- **Anticipate monthly cash flow gaps as you need to pay GST monthly.**
- **You need to evaluate impact on margins and pricing.**

## Technology

- **The entire GST reconcile and filling process needs to be technological driven and cloud-based - no more manual methods.**

## Discipline

- **Steep fines, penalties, cancellation of GSTIN.**
- **On-time filing and payments & no scope for 'Kachcha Bill'.**

## Compliance

- **Your business to get a compliance rating (like CIBIL score).**
- **Vendors need to be compliant for you to claim input tax credit.**

For smooth operations, your entire ecosystem of vendors, suppliers, distributors and dealers needs to be GST

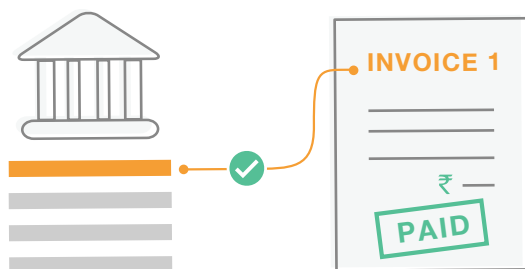

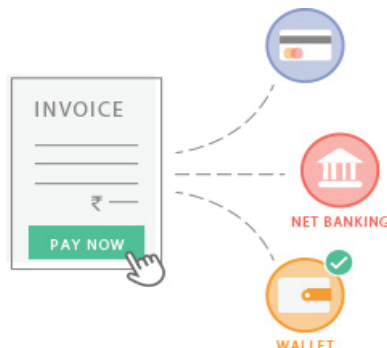

Collaboration with your chartered accountant would be critical. Always prefer technological solutions for smooth operations.
