- Filter it by class, teacher or subjects !

Create different types of forms and let people to fill it up by App

Now Gather information, create surveys or polls using one click

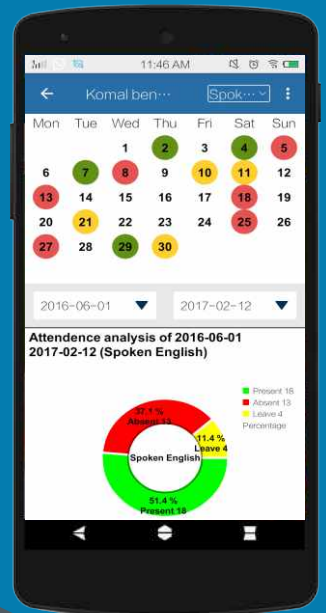

The screenshot shows a web-based form designer interface. On the left is a dark sidebar with navigation options: Calander Dashboard, Upload a Form, Uploaded Form, Create Note, Create Event, Send Form, Create Forms, Ratings Schema, and User Ratings. The main area is titled 'FORM DESIGNER' and contains a form titled 'Fill below details'. The form includes sections for 'About your Age' with radio buttons for 'Below 18', '18-40', and 'Above 40'; 'Your latest program file' with a 'Choose File' button and 'No file chosen' text; a text area for 'write about your self'; and a 'Form Title *' field with the value 'Community information form'. A right-hand panel lists form elements: Checkbox, Checkbox Group, Date Field, File Upload, Header, Paragraph, Number, Radio Group, Text Field, and Text Area.

The screenshot shows a mobile app interface for filling out a form. The title bar is orange and says 'Fill Up Form'. Below it, the form is titled 'INFORMATION FORM'. The form fields include: 'Name' (text input), 'Phone Number' (text input with value '836982822'), 'Address' (text input), 'Date' (dropdown menu with value '27/04/2017'), and 'Radio Group' with three options: 'Option 1' (selected), 'Option 2', and 'Option 3'. A blue 'Submit' button is at the bottom.

Features:

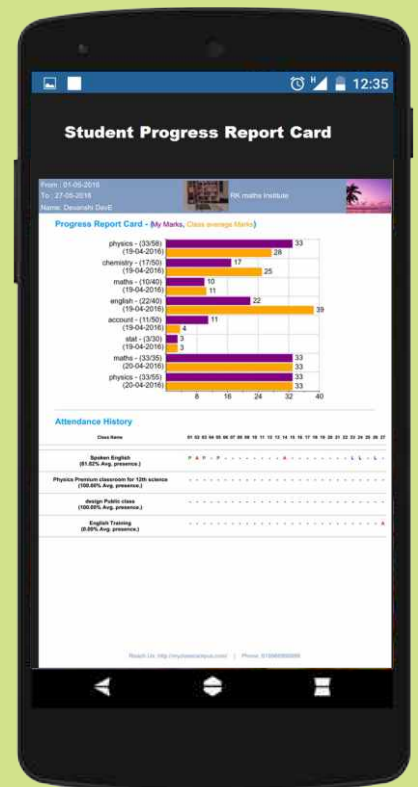

- Create any type of dynamic forms using drag & drop functionality of admin
- Save multiple forms
- Get it printed or send in app to all users or certain group(s)
- People can get notification and fill relevant details
