Cloud Dashboard for Management

Onboarding

Onboarding with QueueBuster™ is extremely easy:

1. Install the QueueBuster™ application on any Android device.
2. Sign-up and fill all the information about your store.
3. Use your Android device or Cloud dashboard to fill all the information about your Products, Taxes, Charges etc.
4. Your device will sync all the information from the server and you are ready to bill your customers in few minutes!

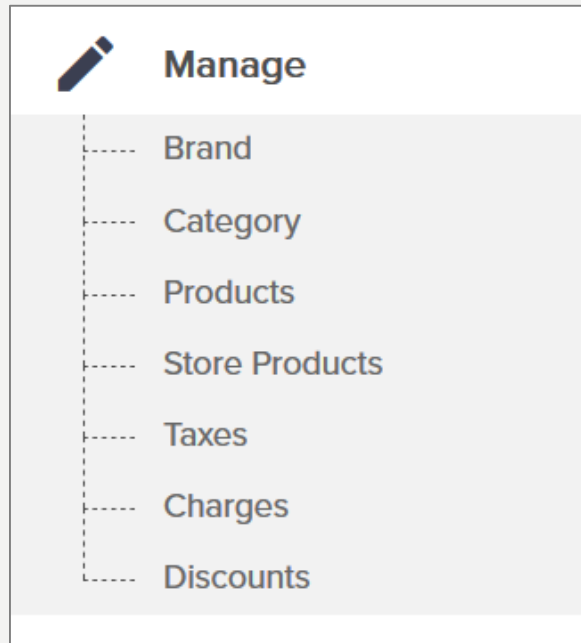

Its THAT simple!

Application Modules

QueueBuster™ has the following modules:

1. Catalogue Management
2. Inventory Management
3. Customer Loyalty Management
4. Payments
5. User Management
6. Reports

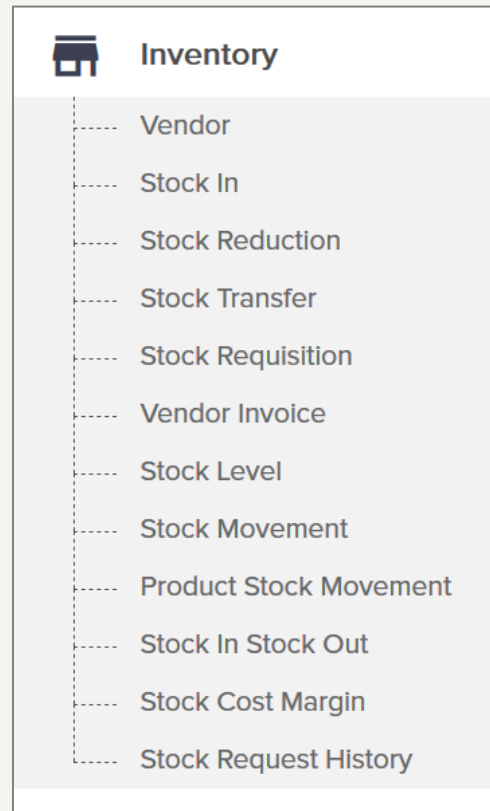

Catalogue Management

Using the Dashboard, you can manage all **Brands, Categories, Products, Taxes, Charges and Discounts.**

There is **NO** need to upload every product individually. You can download a Microsoft Excel template from the server and upload the same after filling all requisite data in a single go!

Inventory Management

Managing your **Inventory** with QueueBuster™ is a cakewalk. You can manage all **Stock-Ins, Stock-Outs** and **Stock-Transfers** using the Dashboard.

You can also perform a **Physical Stock Validation** to note the current stock level of your inventory and record the same on the Dashboard.

There are various Reports to keep a check on your inventory levels at any given point in time!

Customer Loyalty Management

Awarding **Loyalty Points** to your customers is now an extremely easy task. Just define your price-to-points and points-to-price conversion ratio on the dashboard and your customers will automatically start getting reward points for their purchases!
