TORQUS Linking Businesses

What Our Client Say:

Kuldeep Jain
Core Team Member

It's been **2 years and over 60 outlets**, Torqus has helped us scale seamlessly across multiple cities. Their product helps us maintain data centrally and manage our daily operations at outlets efficiently

Romil Kaul
AVP- Operations

We have seen a **25% increase in efficiency** and productivity at both the outlet and central levels. Torqus has simplified our operations and we spend **80% lesser time in purchases**, production and distribution.

Aayush Agarwal
Founder

Our order accuracy has increased by at least 20%. Order preparation and service time has reduced by **66% from 15 mins to under 5 mins and wastage has reduced by 27%**.

Siddharth Joshi
Founder

15% - 20% increase in deliveries efficiency and cash reconciliation. Unaccounted loss in income has dropped to almost zero leading to overall increase in our revenues. It has been over 3 years and we are very satisfied.

Srinivas Iyengar
Finance Controller

We have seen a significant **increase in efficiency of our units in terms of accountability & inventory.** Torqus has enabled us to **track stocks and performance, at real time, of each outlet across multiple cities, from a single dashboard**

Prashant Naik
Head of Marketing

We have reduced our sales differences by 62% and has helped us to **reduce our inventory wastages by over 78%**.

Media Coverage

Today, they have visible presence in four major cities in India with over 500 clients. Having raised their first round of investment of $350,000 they are now aiming to spread their presence to tier 1 and tier 2 cities

YOUR STORY | INSPIRE INNOVATE IGNITE

We have done everything – standing in kitchens to see the process, sitting with accountants, bartenders, etc! There have been times when we stayed at the restaurant till 2 AM to make sure they are able to transact perfectly. It has been a true joy ride.

Crazy Engineers

PR Newswire
A UBM plc company

Torqus works on a SaaS (Software as a Service) based model, which is a 'pay as you go' model. A major barrier for an organization, irrespective of it's size, is to invest in a product at one go. We provide an alternative to this in which clients pay as they use the products, and only for the products which they use. In this manner the one time investment barrier goes away, the clients can try the solution before committing to it.
