Ishan Vyas
Founder @ Instacar

"We tried almost all available solutions and ended up on Giddh solely because the team was open to customization as per our growing needs. We've about 500+ companies for our partner agencies and automated billing and Giddh has been an amazing experience, each and every requirement has been fulfilled within 1-2 hours. Super team, a must use tool if you are a startup, scaling rapidly and your finances are complex."

Narendra Sen
Founder @ RackBank

"Giddh is made for the people like us, NOT just for the accountants."

Tameem Khan
Accountant @ MSG91

"Switching to Giddh has saved us many man-hours. We can now focus on analysis instead of doing manual entries. And it's surprisingly easy to use."

About Giddh

Giddh,

a product of Walkover Technologies Pvt. Ltd. is a Cloud Accounting Software created to change the way a business looks and approaches accounting.

It aims at making accounting a powerful yet easy-to-use tool that assists an organization in monitoring, tracking and expansion.

What We Do?

Committed to make online accounting a hassle-free, smooth and real-time experience.
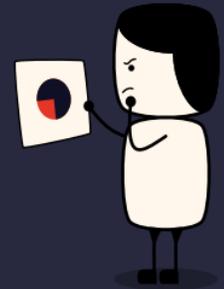

| **Online** | **V/S** | **Offline** |
| (Internet Based) | **Accounting** | (Desktop Based) |

You can manage your Data from anywhere.

You are limited to desktop.

Your data is on linux server, where there's no virus yet. So your data is completely protected.

Your local system is at risk to a lot of viruses. So there are more chances of data carsh and data theft.

Accountants and business owners can always stay connected on cloud.

It's hectic to stay connected with your team and you are limited to your local network.

Your software gets automatically updated.

You need to do manual updation every time.

This gives you, the business owner, your sales team and your entire team, complete control over your finances.

Spreadsheets and Desktop limited softwares are risky, unorganized and limited to your accountant.
