We are here to simplify independent educational institutes administration tasks. Your teachers and administrators work too hard to be held back by complex and unreliable software systems. Want to see your institute working and thriving in perfect unison?

e-Serveshiksha is a secure web-based interactive application which will manage educational institute administration to track year wise information with more user-friendly options. It also helps the management for sending required info to parents. Parents can login and check their children's up-to-date records at any time. So it is simply a gateway between management and parents.

STAFF

- Personal details management
- Automated attendance with payroll system
- Performance appraisal based on students feedback through their logins
- Efficient and effective interaction with parents
- Manage class information and analytical reports
- E-mail, internal messaging system
