

Creating Healthy Generations

Complete Health IT Solutions

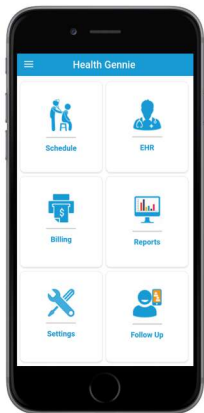

Awarded as the "Most Promising Health IT Company in India" By Silicon India

Health IT Solutions

1 Lite Simple and Fast

Health Gennie Lite is one of the most simple and easy to use app. You can create Digital prescriptions and share it with patients as fast as you do it with paper prescriptions. Patients get SMS and emails for appointment reminders, which makes it very easy for patients and doctors to remember appointments.

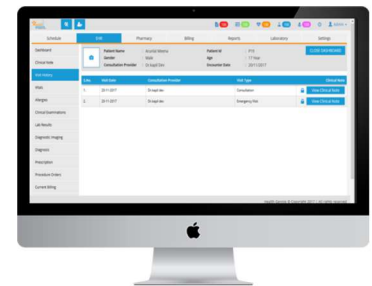

Health Gennie Pro app allows you to manage your entire practice right from your mobile phone. Appointment scheduling, Digital prescriptions follow ups, Reports, Patient campaigns and much more can be done from this one app. Share the prescription with the patients via whatsapp or email.

Pro 2 Fast and much more

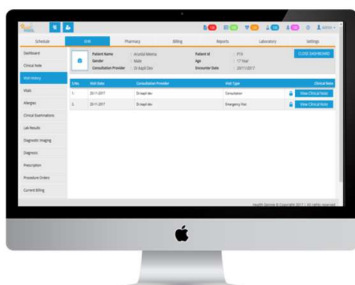

3 Mint Everything your practice needs

Health Gennie Mint is one of the most comprehensive cloud based solution for your practice or a Hospital. Integrated Lab and Pharmacy helps in easy and fast patient care. Complete Appointment management, Electronic Health Record, patient document management, Lab management, Pharmacy Management, Analytics and Patient Engagement and much more can be done with this system. No Hassle of managing servers and backups makes it the best system to use for patient care.

Mount 4 Your system Your way

Health Gennie Mount is a customized solution based on your requirements and workflows. Complete OPD and IPD management along with inventory and other related modules makes it a complete system for your Health Care organization. Give you patients the experience which they deserve and engage them using Health Gennie so they feel connected with you and your organization.
