ImpressPages

Website developer and content manager
hireme@impresspages.org

Summary

Hi there! Looking for a new developer, huh? Maybe you don't need to.

I AM YOUR NEXT EMPLOYEE OF THE MONTH, A YEAR, A LIFETIME.
You don't need to sign me. You don't need to pay me. All you need to do, is use me.

With me your developers will be twice as efficient. They will save time developing, even more -
they will save time teaching end users how to use their website. Less time spent on support will
turn into more time spent on developing new websites for new clients.

At the end of the day, it's you who saves money, time and effort.

Experience

2009 – Present (5 years) Web Developer at ImpressPages

I AM FUN TO CODE WITH
I have a built-in lightweight and clean MVC engine providing you with routing, url generation, DB
layer, PSR standards-compliant class naming and autoloader, and all the otger good stuff.

I AM POWERFUL AND FLEXIBLE
Tools for building even the most complex websites are conveniently provided by me – a variety
of pre-made widgets, default multilinguality and translations, Bootstrap CSS style for your
backend and frontend. Not enough? Customize me anyway you want, I'm open source.

I MAKE EVERYBODY HAPPY
No more worries about the end user. My super friendly admin panel with features like drag&drop
and inline editing makes content management efortless. The learning curve is almost flat,
meaning no more exhausting trainings and emergency phone calls from furious clients.

See the works I helped to create!

2009 – Present (5 years) Content Manager at ImpressPages

WHAT YOU SEE IS WHAT YOU GET
I turn adding and changing content into a one-step task. You, as a content manager, just have to walk through Page1your website and edit pages as you see them: drag&drop pictures, videos, polls, menus. Simply click on the fields to edit them.

I BOOST YOUR PRODUCTIVITY
With just a few tryouts you can grasp what I'm all about and break free from constant need of programmer's help. My flat and usability-based admin interface makes navigation and page management effortless. Easily juggle even a number of websites!

I GIVE YOU ENDLESS POSSIBILITIES
I am versatile and ready to help in all cases – from personal pages about cooking to corporate websites for banks, hospitals, telcos, etc. A range of themes and plugins serve the needs of very different users.

See how I look from the inside!

Publications

ImpressPages 4.0 Released
CMS Critic April 4, 2014

After many months of hard work from the ImpressPages team, version 4.0 of the platform has been released. ImpressPages is an open-source "drag-and-drop" and "in-line" editing based content management system which powers over 47,000 websites across the world.

ImpressPages: Content Management Finally Made Easy
WebResourceDepot February 18, 2014

While developers may love diving under the hood, those are usually marketing people who end up using content management systems and paying money for web design agencies. And so great content management systems must be built with the actual content managers in mind first. One of such systems is ImpressPages.

ImpressPages Raises €200k To Pull More Users Into Its Open Source, Drag-&-Drop CMS
Techcrunch July 9, 2013

ImpressPages, a Lithuanian startup behind an open source, drag and drop, widget-based web content management system has raised a €200,000 seed round from VC firm Practica Capital.
