

Rchilli is not just a parser; in-fact was never one. We bring you the next level of Recruitment or CV automation whatever suits you as we can handle everything and anything about Resumes. Don't be swayed by Big Data as we've managed that as well for you. On demand Recruitment insights based on your industry and usage because nobody understands your business the way you do.

Let's come forward and simplify Recruitment and CV automation with Rchilli.

Parsing Results

The screenshot displays the 'Rchilli Parse Resume Result' interface. On the left, a form titled 'Qualification' shows the following details:

University:	Visveswaraya Technical Univers
Degree:	Bachelor of Engineering
Year:	2006
Qualification Text Block:	Bachelor of Engineering, June 2 New Horizon College of Enginee Visveswaraya Technical Univers Specialized in Electronics and C

On the right, the 'Output as XML tree' shows the following structure:

```
resumeparserdata ..
├── resumefilename Sample4.doc
├── parsingdate Tue Jan 14 04:38:17 CST 2014
├── titlename
├── firstname Kulukuloori
├── middlename Subramanyam
├── lastname Karthik
├── dateofbirth 2/3/1985
├── gender Male
├── fathername Subramanyam Karthik
├── mothername Brij Baala
├── maritalstatus Single
└── nationality
```

At the bottom, there is a navigation bar with tabs for 'Contact', 'Personal', 'Experience', and 'Qualification'. A copyright notice at the bottom left reads: 'Copyright © 2010 RChilli Inc. Resume Analyzer Company, integrate with y'.

Parse –

The most potent Resume Parser having exclusive capabilities to extract 74+ fields from resume, auto-populate them in specified forms and send their direct output as HR-XML in your database. Multi-lingual, Hybrid Cloud, All-doc converter, many more..... For every ATS, Job board or Recruitment solution.

Connect –

While parsing candidate's resume, we can source available Social Media profiles of candidate and show them distinctly under Social Tab. Connect to the right ones in-time; reinstate your employer brand via fresh Social Marketing efforts and lowers per hire cost drastically. Social Recruiting was never so easy.

Search-Match-

Semantic Search floats the closest resume, profiles matching your set criteria completely and Match Technology lets you find the right candidate for most preferred jobs. So you end up placing more candidates in less time. Intuitive Search & Match goes beyond keywords and makes Recruiting a lot fun.

Update –

Having huge stack of old resumes but of no use or value, then considering us can add new value to your business. We update your passive resumes by mustering most current information about them, replacing them back in their profiles and now showing them as a fresh candidate for all current positions.

One Click-

The bliss of having fully-automated software that suits business of all sizes is here to stay. We bring you the pleasure of Parse, Connect, Search-Match and Update in just One click. And that's what we call CV Automation. To have a complete review of our CV suite and resume parsing services reach us at sales@rchilli.com or find us on social. We love to hear from you.
