

# mySkoolApp<sup>TM</sup>

...smart step in Education

a Product by Hex Technologies Pvt. Ltd

# mySkoolApp

Hex Technologies Pvt. Ltd. proudly introduces one-of-its-kind smart, futuristic and multi-functional “mySkoolApp” – a mobile and web based supervisory application aimed at keeping a watch on the performance and conduct of a student in his school/college. The application is specifically designed to enable comprehensive e-communication /mobile based communication between school, parents and students apropos the status of a student’s academic manoeuvring, functioning and allied academic affairs; within the school campus.

It is an ultra-modern, SMART solution for school, parents and students working on their smart phones and computer monitors, with a unique user-id and password assigned to the user.

# You Support the nation building...

# ...and

# we support you

## web panel

## iOS

## &

## Android

## interface

With mySkoolApp, educational institutes can share real time updates of activities/happenings/reports emanating in the confines of classroom and school campus with parents, without dissipating efforts on underlying clerical drudgery. Intelligent features of “mySKoolApp” will reinforce the scale of teacher-parents interaction, with an objective to bring an element of real time information and transparency regarding the student’s activities and accomplishments. Naturally, this will infuse more involvement on the part of parents, in contributing towards the advancement of their child’s studies and non-curricular activities.
