We found the best partner in ADP and the experts at ADP just proved once again why they are the leaders in the global payroll market. I never had to expand my team to meet the increasing requirements as we moved from one branch to more than 20 branches in India. So, if I look at the total cost of ownership, it has actually been on the positive side over the last five years.

Flexible Payroll Solution Tailored to Your Business Needs

Process Payroll in 3 Steps Only

Sync employee's monthly details to start the payroll process.

Generate salary with detailed pay slips and tax slips.

Make payment and close the process.

We are very pleased with ADP's services. A great advantage is the fact that they keep improving the platform, making it easier to use and less time consuming. We now get an additional one and half days to review our payroll process.
