

India's most innovative Recruitment Management System

For Direct Employers, Staffing Companies, Permanent Placement Agencies

Do you still use traditional ways of maintaining database?

Stop Hard Work, Do Smart Work

About Talentnow

Talentnow is a technology leader in recruitment software. We help organizations seamlessly manage quality recruitment . Our suite of advanced and intuitive tools bring in high degree of automation and simplify the entire recruitment process.

Part of the VORA group that specializes in building innovative companies worldwide. Vora Group portfolio consists of 13 ventures in software, services and infrastructure solutions employing over 2100 people and catering to F500 companies.

Philosophy

Most of the recruitment solutions offered so far have been focusing on volume. Talentnow takes this further to provide significant quality and value for its actual users, thereby yield:

- ❑ Higher Speed: Almost zero data entry ensured your users can deliver faster.
- ❑ Higher Efficiency: Our technology helps you to save time on non value added activities enabling users to focus on business.
- ❑ Smarter Recruitment: Workflow, duplication management, auto resume conversation and many more features.
- ❑ Data Access: We give you an ability to access your database from anywhere in the world, even from a small mobile device.
- ❑ Comprehensive Reports: We have 25+ inbuilt recruitment reports and also give you the ability to create customized reports on the fly for you.

Only Indian recruitment management software company that integrates completely with LinkedIn, Naukri, Monster, Indeed, Outlook and even with your company Career page
