

Digital Document Management

EisenVault takes away the hassle of managing documents by storing them in **electronic form, enabling smart search** and **quick retrieval when required**.

The EisenVault Digital Document Management System is built on modern, world-class open architecture making it flexible & adaptable to suit all business requirements. The web-based user interface is easy to use and follows enterprise-grade SSL encryption offering complete protection to your documents.

EisenVault Unique Features:

Secure Storage

- **Server Side Encryption** - EisenVault uses 128-bit AES (Advanced Encryption Standard) to store your content.
- **Operating System Security** - EisenVault servers use modern Linux operating system which provides file and folder level secure access control and protection from hackers.
- **Physical Security** - EisenVault servers are housed in international tier-1 cloud data centers with redundancy and physical security.

Customizable and Flexible

- **Multilevel Access Control** - EisenVault offers multiple levels access to documents which can be further customised.
- **Accountability** - EisenVault maintains logs of all actions on documents.
- **Versioning** – All document edits create new versions allowing you to revert to an older version when required.
- **Backup** – Entire repository content and properties are backed up daily. Disk & OS snapshots taken weekly.

Robust Technology

- J2EE / Spring framework web application
- PostgreSQL database
- Solr4 search engine
- Uses open CMIS for compatibility and interoperability with other corporate ECM systems.

Easy to Use

- Automatic OCR of Scanned Images creating searchable PDFs.
- Multi-Language OCR - English, Hindi, Bengali, Tamil, Telugu, among others.
- Supports multiple file types PDF, Doc, Docx, ODT, Google Docs, TIFF, JPEG, PNG and more.
- No limit on file size, ability to handle millions of documents.
- Easily customisable and adaptable user interface.
- Web based & Mobile-app based access.
- Cloud based / On-Premise installations possible.

**The right document, the right person, the right time - with
EisenVault's Document Management System**
