

Ellipse has positively changed and affected me and my children than any other educational experience to date. I believe that the experience the ellipse offers is outstanding...by Sangeetha Nair (Ellipse User)

"My experience with the Purple Systems turned out to be exiting to my School development. Adolescence is such a sensitive and formative time in life. The gravity of the choice a parent faces for who is allowed to nurture and support their child's growth through this period cannot be understated. Do not let your child and your family pass on this opportunity."...by Zachariah Thomas (Principal.Maria Montessori)

Technology at school for you

CONNECTING YOUR MANAGEMENT TO THE TECHNOLOGY RESOURCES YOU NEED

Using the methods and approaches practiced in the research, we developed a product named ELLIPSE, which is ultimate tool for increasing the Parental involvement in children education and thereby improving the entire education system. ELLIPSE is already in use by thousands of Parents and their experience itself is the valuable proof for the benefits of applying ELLIPSE in education system.

ELLIPSE achieves the goal by providing a platform for efficient communication between schools and parents in assisting and motivating their children and a lot of other tools for both parents and schools to manage and monitor the education of children.

SCHOOL SUPPORT SOLUTIONS AND BENEFITS OF ELLIPSE.

flexible solutions for your school needs

Ellipse is an online service developed with the intention of creating an educational community to improve the quality of education provided by the school and allows transparency for the environment in which their child is getting educated.

Motivated from a series of research on 'parental involvement in child education' conducted in US and Australia, Purple systmes has done a lot of research and analysis in this topic. From all these studies, it is proved that the education of the child can be improved significantly by the increase in involvement of the parents in their education.

Solutions to Environment.

Ellipse is fully e-nabled and is environment friendly. Ellipse helps to minimize the usage of paper through its various features like e-Attendance, e-Mark sheet, e-Diary etc.

Solutions to Teachers SMS without PC or Smart phones.

Introducing India's first integrated solution which can be operated by any individuals with hassle-free technical systems.

EMERGENCY SOLUTIONS

Schools can easily send important notices or announcements to parents in advance in case of emergency or any other through SMS at one single click.
