

LMS® REVOLUTIONIZE THE GUEST EXPERIENCE

AGILYSYS LODGING MANAGEMENT SYSTEM® (LMS)

Streamline operations and revolutionize the guest experience.

For hotels and resorts that want to offer their guests enhanced experiences while growing the bottom line, LMS helps drive as much as a 25% lift in revenue with room upsells at check-in. Designed specifically to bring efficiency into your operational workflows, this award-winning property management solution operates 24/7, just like you do, and its stable, secure, scalable platform offers control and flexibility to grow your bottom line.

More opportunities to increase revenue and enhance guest service.

Digital Check-in & Upsell

Guests receive a text on their personal device, and use the link to check-in prior to their arrival. Communicating in advance means you're better prepared for guest arrivals. Guests may update their payment details using our secure rGuest® Pay solution, and digital check-in provides the opportunity to offer room upgrades, book dining reservations with rGuest® Seat and offer other service enhancements that increase your bottom line.

Room Ready Messaging

Guests receive an automated text alert once their room is ready. Because payment information is stored securely within guests' profiles, they simply head to the expedited mobile check-in desk to pick up their room key.

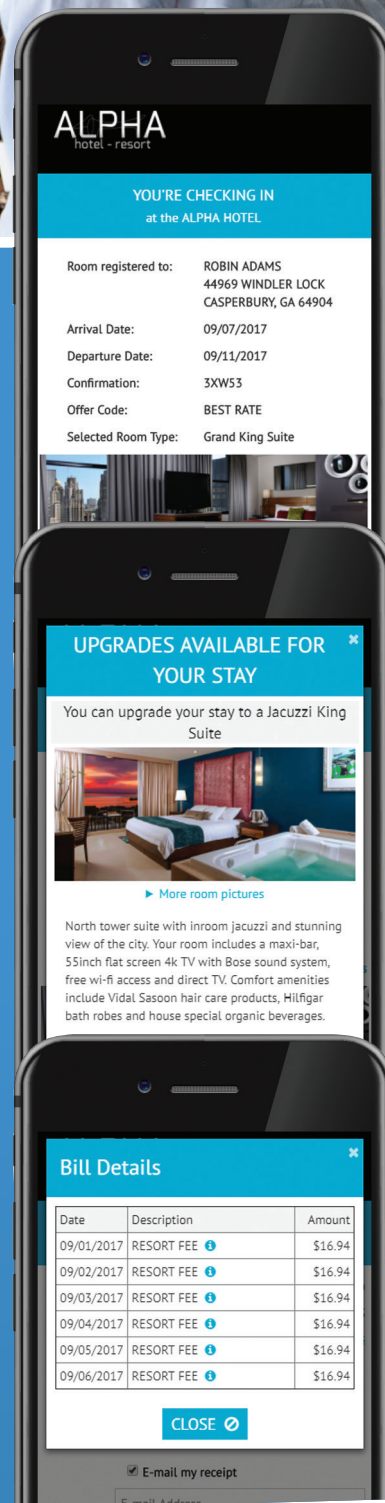

Digital Check-out

At the end of the stay, guests receive a text that mobile checkout is available. They view the detailed charges in their folio - including itemized receipts from outlets with InfoGenesis®, leave the key, bypass the front desk and hit the road.

Mobile Housekeeping

Say "Good-bye" to clipboards forever. Digital, mobile housekeeping increases staff efficiency, reduces labor costs and helps create satisfied guests.

ALPHA
hotel - resort

YOU'RE CHECKING IN
at the ALPHA HOTEL

Room registered to: ROBIN ADAMS

ABOUT AGILYSYS

Agilysys is a leading technology company that provides innovative software and services for point-of-sale (POS), property management (PMS), reservation and table management, inventory and procurement, workforce management, analytics, document management, and mobile and wireless solutions exclusively to the hospitality industry. Our products and services allow operators to streamline operations, improve efficiency and understand customer needs across their properties to deliver a superior overall guest experience. The result is improved guest loyalty, growth in wallet share and increased revenue as they connect and transact with their guests based upon a single integrated view of individual preferences and interactions. We serve four major market sectors: Gaming, both corporate and tribal; Hotels, Resorts and Cruise; Corporate Foodservice Management; and Restaurants, Universities, Stadia and Healthcare.
