- & 150 more

# Customers Speak

We got the complete MyWipro App **integrated with our SAP systems**. Citizen developers are launching enterprise apps in our company for various operations and business processes.

My **Business team is enjoying building and launching apps** for work with DronaHQ's intuitive UI that is helping break down complex scenarios into simple task-based apps.

**Within 8 weeks** we launched the app for **remote asset tracking**, bringing the equipment closer to owners and enabling **proactive maintenance with custom workflows**.

Material Request App **launched within 2 weeks** that helped speed up project-critical processes by 60%.

In **6 weeks** we transformed from paper to **25 apps** for our media and entertainment business **without going to any developers**.
