EMPOWERING THE SMART ENTERPRISES

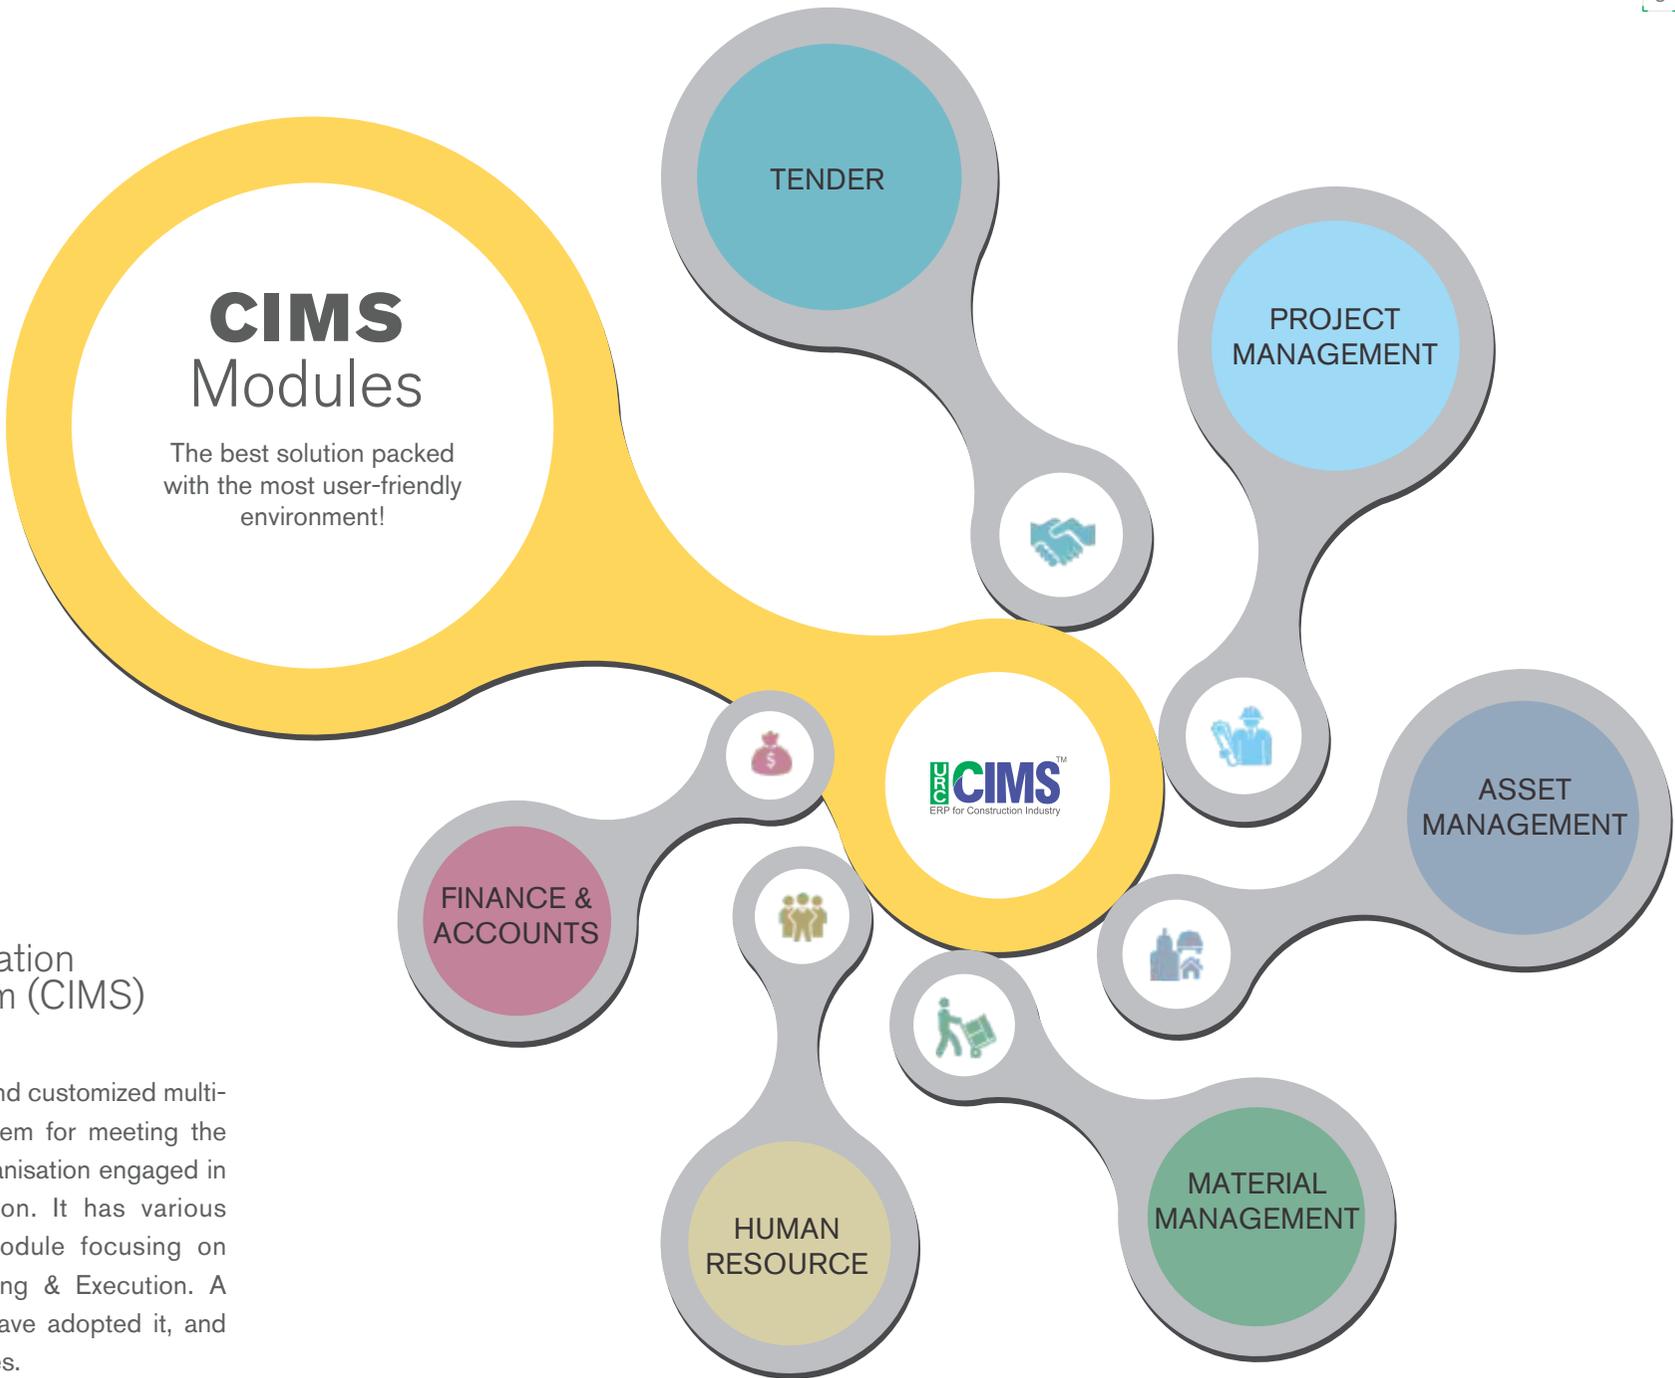

URC Infotec is a team of young and energetic techno entrepreneurs, engaged in designing, developing and deploying Enterprise Systems and Solutions (ESS), both as products and services. Its strength is derived from the backing of URC Construction (P) Ltd., a construction group well known in India, with over 60 years of construction experience in executing more than 600 projects.

Accessing information across our business units is highly critical for decision-making in such an industry; URCI helped us in achieving their successfully, in turn supporting our business expansion. Overall, I would say, it was a good decision to be engaged with URCI for automating our business process to gain more visibility on our projects spread across.

NCC

1. ERP Product Development
In Jan. 2010, NCC assigned ERP development to URCC Infotech, an IT solution provider. Teams at URCC & NCC together worked on areas of Business Process Development, customization of product and testing.

ERP - MODULES
We designed the total integrated ERP in two phases. As part of phase I, we covered about 85-90% of the total ERP requirements and plan to cover the rest in phase II.

CIMS Process Flow

CIMS is doing good job for us and we are very happy with this support. Now, we are getting full control of our business and we can concentrate on other sides of improvements in our business. We are experiencing the difference now and all credit goes to CIMS and it makes complex business process simple and easily manageable. Finally we got the right solution – Thanks to CIMS and URC Infotec team.
