World's 1st FaaS

FOSS as a Service - FaaS

Expand the horizon of your business by switching to a platform that caters to all your requirements at Once!

OneHash is an all inclusive platform for all your business needs!

CRM   HCM   Project   Desk   ERP

About Us

Tech-geeks with a passion to bring about a change!

With SaaS software's sky high prices and incompleteness, it was impossible for SMBs to incorporate them in their system. FOSS can't be regarded as a long-term solution owing to its lack of viability due to lack of support and security. To rectify these issues and democratize SMBs OneHash created the World's First FaaS software.

FaaS is a merger of FOSS and SaaS, i.e. Perks of SaaS at the price of FOSS. A wholesome solution to manage all your necessities.
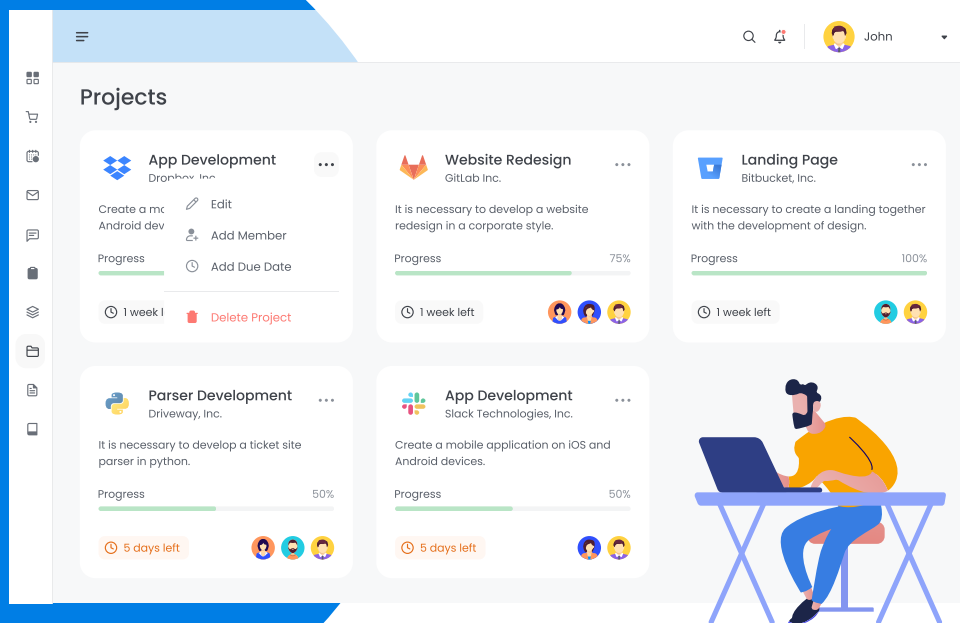

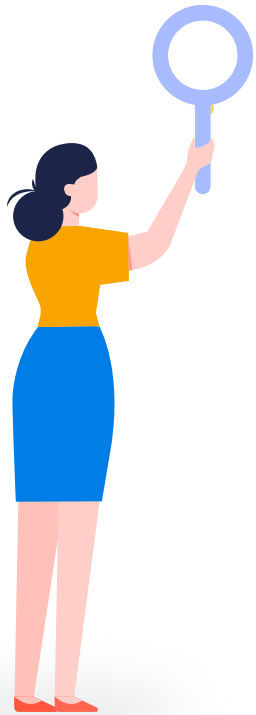

Here's what we have in-store for you

Workflow
Automation

To save time, boost revenue, and stream-line procedures, intelligently automate all activities, with efficient automation tools.

Easy
Customization

Create unique views, connect information, test modifi-cations before rolling out, and even adapt the language and currency to match your consumers with custom fields, buttons, and layouts.
